8+ years of experience leading and executing design for mobile and web products, integrating AI into both design and development workflows to accelerate discovery, prototyping, and delivery. Skilled in UX/UI, design systems, and cross functional collaboration, with a track record in mentoring, strategy, and delivering data informed experiences that drive growth.

EXPERIENCE

Zinc Product Design Lead Jul 2025 - Present, London

B2B SaaS background checking platform enabling companies to streamline hiring through automated verification, named one of the UK's fastest growing tech companies by The Times

- Architected and owned the end to end delivery of new product IP powered by AI driven routing and recommendation systems, winning new enterprise customers and increasing completion rates by 20%.
- Managed and led the Design team, growing it from individual contributors into a high performing unit, raising standards in craft and ownership, and supporting designers in progressing into senior roles.
- Partnered with product and engineering leadership to define strategy and prioritisation, aligning design to commercial goals and contributing to 30% quarter on quarter revenue growth.

Almedia Product Design Lead Jan 2025 - Jul 2025, Berlin

Berlin-based ad-tech innovator with 80M+ users and $500M+ in rewards distributed

- Managing and leading the vision and execution of Almedia's product design, balancing strategic direction with hands-on design work to shape user experiences that drive business growth.
- Driving design operations initiatives such as continuous discovery and design systems to improve efficiency, collaboration, and scalability.

Patchwork Health Senior Product Designer Jan 2024 - Oct 2024, London

SaaS health-tech provider enabling 100+ NHS organisations save £95M+ in agency fees

- Led end-to-end design for native mobile products, improving adoption by 25% through user-centred strategies.
- Developed and maintained a robust design system, ensuring UI consistency and efficiency across multiple platforms.
- Built and managed a 700+ user testing panel, translating insights into actionable product refinements, while mentoring junior designers to foster continuous improvement.

Rapid Product Designer May 2022 - May 2023, London

Unicorn API platform enabling 6M+ developers to build and scale, handling 7B+ calls monthly

- Translated complex technical requirements into intuitive designs, leading to a 30% increase in conversion rates.
- Collaborated with design and engineering teams based in San Francisco Berlin and Tel Aviv, facilitating the successful launch of new features.
- Developed the Visual Studio Code environment, growing weekly active users to 100k.

BX Founding Product Designer Nov 2020 - May 2022, London

B2B SaaS carbon accounting intelligence enabling businesses to reduce their environmental impact

- Established the product and design function, defining the vision for scalable sustainability solutions in the agri-tech space.
- Built and led a design team, implementing agile processes that reduced project delivery time by 25%, improved cross-functional collaboration, and ensured faster product iterations.

EDUCATION
